ironhead sportster engine | eBay

When the daredevil Evel Knievel jumped motorcycles in the early 1970s, he was usually powered up the ramp by an Ironhead engine. This engine was made by Harley-Davidson from 1957 until 1985 and it was used primarily in the Harley-Davidson Sportster.

Ironhead Engine | eBay

A vintage Sportster engine will take considerable time and money to rebuild properly. If you're thinking of having it done at a motorcycle shop, a complete Ironhead engine build could easily run \$2,000 with some shops quoting over \$3,000.

Ironhead Engine Build - Classic Motorcycle Build

The Harley-Davidson Ironhead motor is the main reason for the enduring success of the Sportster. Considered by many Sportster purists as the last real Harley engine, the Ironhead is the throbbing powerhouse that lends heart and soul to a long line of Sportsters produced from 1957 to 1985.

Harley-Davidson Ironhead Sportster Engines | JPCycles.com

The Harley-Davidson Ironhead Sportster. When JP decided to take on a 1985 Harley-Davidson Ironhead Sportster he knew he was taking on an entirely different beast to the European and Japanese motorcycles he'd build previously. As it happens, 1985 was the final year of the now legendary Ironhead engine before the Evolution engine made its appearance. The Evolution power unit was introduced ...
