In linear algebra, a Jordan normal form (often called Jordan canonical form, or JCF) of a linear operator on a finite-dimensional vector space is an upper triangular matrix of a particular form called a Jordan matrix, representing the operator with respect to some basis.

Jordan normal form - Wikipedia

The following were written mainly to answer questions that came up on Phys-L, the Forum for Physics Educators. There is also a secure version of this page.

Physics Documents - Welcome to Av8n.com

Calculus (from Latin calculus, literally 'small pebble', used for counting and calculations, as on an abacus) is the mathematical study of continuous change, in the same way that geometry is the study of shape and algebra is the study of generalizations of arithmetic operations.

Calculus - Wikipedia

State Standards Initiative for rigor and alignment with the California standards. Based on the

evaluation, the Commission inserted words, phrases, and select California standards to maintain California's high expectations for students.

California Common Core State Standards

For over 75 years, Hancock Enterprises has provided builders, remodelers, and home owners with industry leading rain control management systems, and the products and tools installers need to professionally do the job right.
