The Origins of Virtue: Human Instincts and the Evolution ...

The Origins of Virtue is a non-technical discussion of the evolutionary aspects of cooperation and altruism. That being an extremely complex subject (and still very much an active area of research), a short book like this can only skim the surface.

The Origins of Virtue: Human Instincts and the Evolution ...

The Origins of Virtue is a 1996 popular science book by Matt Ridley, which has been recognised as a classic in its field. In the book, Ridley explores the issues surrounding the development of human morality.

The Origins of Virtue - Wikipedia

The Origins of Virtue argues that the human mind has evolved a special instinct for social exchange that enables us to reap the benefits of co-operation, ostracise those who break the social contract and avoid the trap of being 'rational fools'.

The Origins of Virtue: Human Instincts and the Evolution ...

According to Ridley, private property is the institution that makes cooperation more likely. In chapter 12, "The Power of Property," he shows how private ownership of the environment leads to gains from trade and hence provides the incentive to cooperate.
