This article describes a common overheating laptop scenario along with a fix that works. Overheating laptop and related shutdown problems are very common in notebook computers, especially in home use.

### **Fix Laptop Overheating Shutdown Problem - Computer Repair Tips**

This laptop came for repair because of the LCD screen backlight failure. My customer complained that the laptop LCD screen is black but the laptop works with an external monitor.

### **Troubleshooting backlight failure | Laptop Repair 101**

There is only one reliable way to test the inverter - replacing it with another one and see if the screen lights up after that. Alternatively, you can connect a new backlight lamp and see if your presumably bad inverter lights it up.
